

## BUSINESS SUPPORT, TECHNOLOGY AND

### COMMUNICATIONS ORDER FORM

Please complete and return this form no later than 7 business days prior to your event to [exservices@mcec.com.au](mailto:exservices@mcec.com.au). Any request received after this due date will be assessed on an individual basis as we may not be able to guarantee delivery of good and services after this deadline has past.

Once your order has been received and processed, you will be sent a Tax Invoice confirming your order details. **No services will be provided until payment is received.** All service charges are current and subject to change without notice.

## TERMS AND CONDITIONS

- Cancellations to service requests must be submitted in writing to [exservices@mcec.com.au](mailto:exservices@mcec.com.au) 72 hours prior to the event commencing. Failure to submit a request to cancel or for any cancellations received after the cut off period will result in full fees being charged.
- MCEC will not manage, monitor or support any third party devices connected to our network such as network switches, routers or wireless routers. Should it be discovered that these devices pose a security risk to the MCEC network or create network issues we will be forced to disconnect, remove or disable any such devices to ensure the integrity of the network for both the venue and for other customers relying upon the infrastructure (including MCEC wireless networks and M Connect).
- Wireless is a less secure service and download speeds vary depending on the number of users at any one time. Wireless signal strength can also vary depending on geographical location and other items interfering with the signal. For best results we recommend the use of 5GHz (IEEE 802.11n-2009 standard) wireless compatible devices. Previous standards are supported but results can vary in line with the limitations of these standards and associated devices. Customers who require a secure network to download continuous information over a longer period of time are advised to order a dedicated broadband (cabled) service.
- Consideration may need to be made in relation to access of peer-to-peer file sharing sites as excessive downloads and reduced bandwidth have been experienced at some events.
- Hire fee includes government stamp duty and damage waiver. Damage waiver does not include theft.
- All prices listed include GST.
- Images above are representative only,

### Telephone, fax and EFTPOS lines

All phone, fax and EFTPOS connections at MCEC require the user to dial "0" to obtain an outside line.

Exhibitors are required to arrange their own EFTPOS machine. This can be obtained from their bank or financial institution or alternatively they can provide their own.

Digital phone handsets and equipment are delivered to stands on the last day of event move-in or earlier by request of the exhibitor.

Digital phone handsets that are issued will not work if removed from the building. Handsets will be collected at the conclusion of the event. If you wish to leave before it has been collected please return it to Customer Service or call +613 9235 8302 for collection. Lost or damaged handsets will be charged at up to \$450.00.

After the conclusion of the event call charges will be calculated. Please note that the receipt of call charges may take up to three days post event and will be included on your final invoice.

Exhibitors are advised that the ISDN connection (Onramp 2) is inclusive of the network terminating unit but does not include an ISDN terminal adapter or router. Exhibitors wishing to use the Onramp 2 service are required to provide their own ISDN terminal adapter or router.

Phone lines are digital and will not work with standard analogue devices such as modems and EFTPOS machines

**Broadband internet connections**

Please note for connection to our broadband internet you will need to have your computer set to obtain IP and DNS addresses automatically from our DHCP server. This is the standard operating system default. Administrator access is needed if you require MCEC to configure your computer with these settings. Ideally your administrator can configure these details for you.

Broadband internet access price includes the internet access itself through the supplied network cable for the nominated amount of downloads. We can help you configure your computer with the appropriate settings to access our broadband connection. For other computer related issues you should contact your administrator, computer vendor or IT support. We may be able to assist with some queries, however please note that a labour charge will be incurred and we do not take responsibility for problems with your computer.

Broadband services do not pass through any firewalls to allow maximum access to our end users, however, by default are private IP addresses which offer some protection from the outside world. Computer security and virus protection remains the responsibility of the client. We recommend that virus protection with the latest virus definitions be installed and that all operating systems patches and updates also be installed. MCEC accepts no responsibility for clients computers contracting viruses or having security compromised once connected to the internet. We will ensure that the internet connection is functioning correctly.

Broadband services provided are not for resale or sharing with other exhibitors. Offenders will be disconnected and further action may be taken.

MCEC can provide you computers that have a fresh install with the latest virus definitions and windows updates installed.

I have read and understand the above terms and conditions.
